Guidelines for courses offered through non-BWC training forums

- The group sponsor, third-party administrator or an independent source can sponsor a course, provided it meets the two-hour criteria.
- The topic must be workplace safety related and at least two hours long or be two one-hour classes. The class may be held in a classroom, online or a Webinar with the proper documentation needed to submit to a group sponsor.
- BWC pre-approval to qualified training is not required.
- The class must be conducted by reliable and credible safety-training sources. If a sponsor has any questions about safety training that he or she wants to deliver, the sponsor may contact the assigned BWC safety consultant for guidance.
- Employers can do in-house training provided they document it, and the training is beyond the expected regular day-to-day safety training in the workplace.

Sponsor documentation

- Employers are responsible for submitting documentation on how they met the two-hour training requirement to their group sponsor.
- The sponsor must maintain documentation regardless of where the service is delivered.
- Examples of documentation include but are not limited to signed class rosters or a certificate of completion.
- Each policy owner needs to fulfill separately the two-hour training requirement.
